If the foregoing determinations about the Applicant are made, no management contractor or Tribal gaming operation shall employ the Applicant.

- 2.5 “Mitigation”** means avoiding an impact altogether by not taking a certain action or parts of an action; minimizing impacts by limiting the degree or magnitude of the action and its implementation; rectifying the impact by repairing, rehabilitating or restoring the impacted environment; reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action; compensating for the impact by replacing or providing substitute resources or environments.

- 2.6** “**Project**” means any: (1) expansion or significant renovation or modification of an existing Tribal Gaming Facility and/or (2) significant excavation, construction, or development associated with the Tribe’s Gaming Facility or proposed Tribal Gaming Facility.

SECTION 3 BASIC REQUIREMENTS

- 3.1 Environment Assessment or Finding of No Significant Impact** Before commencing any expansion or significant renovation or modification of an existing Tribal Gaming Facility, or any significant excavation, construction, or development associated with a Tribal Gaming Facility or proposed Tribal Gaming Facility, the Tribe shall require the development of an Environmental Assessment which the Executive Council shall use to determine if there is substantial evidence that the proposed Project will have a significant off-Reservation environmental impact. If the Executive Council finds that it will not, it shall follow the procedures detailed in this Code for the issuance of a Finding of No Significant Impact (FONSI).
- 3.2 Off-Reservation Impact** If, however, the Executive Council finds that there is substantial evidence that the proposed Project will have a significant off-Reservation environmental impact, defined as a substantial adverse impact in the physical conditions of the off-Reservation areas as they existed at the time of the study, the Executive Council shall follow the procedures detailed in this Code for the preparation of an Environmental Report.
- 3.3 Response to Adverse Findings** When an Environmental Assessment shows that an expansion or significant renovation or modification of an exiting Tribal Gaming Facility or any significant excavation, construction, or development associated with a Tribal Gaming Facility or proposed Tribal Gaming Facility would cause substantial adverse changes in the off-Reservation environment, the Executive Council shall respond to the finding by one or more of the following methods:
- 3.3.1 Change the proposed Project.
 - 3.3.2 Impose conditions on the approval of the Project.
 - 3.3.3. Adopt plans or ordinances to control the adverse impact.
 - 3.3.4. Choose an alternative way to meet the same need.
 - 3.3.5. Disapprove the Project.
 - 3.3.6. Find that changes in or alternatives to the Project are not feasible.

- 3.3.7. Find that the unavoidable, significant environmental damage is acceptable, because the Tribe's economic, legal, social, technological or other benefits of the proposed Project outweigh its unavoidable off-Reservation environmental impacts.

SECTION 4 POLICIES GOVERNING ENVIRONMENTAL ASSESSMENTS AND REPORTS

It shall be the policy of the Tribe that:

- 4.1 Review of Off-Reservation Impacts** These studies shall serve not only to protect the environment but also to demonstrate to the off-Reservation community that it is being protected and that the Tribe has, in fact, analyzed and considered the off-Reservation impacts of its actions.
- 4.2 Notice to Public** These studies shall inform the Tribal and local governments and the public of the anticipated off-Reservation environmental impact of the Project.
- 4.3 Decision-Making** These studies shall allow the Tribal government to make decisions regarding these proposed Projects with the off-Reservation environmental consequences in mind.
- 4.4 No Delay of Projects** These studies shall be undertaken in a manner which is designed to allow the Tribe to make informed and balanced decisions, not to prevent, delay or preclude the advancement of Gaming.
- 4.5 Off-Reservation Influence** These studies shall be prepared early enough to allow off-Reservation environmental concerns to influence the Project's design and construction, yet late enough to allow for a real and honest assessment of the Project's off-Reservation environmental impact.
- 4.6 Tribal/Federal Cooperation** These studies shall be prepared in a manner that eliminates duplication of federal efforts by providing for joint Tribal/federal preparation of environmental documents.
- 4.7 Simple Writing** These studies shall be analytic, rather than lengthy, and shall be written in plain language. They shall also mention, only briefly, issues other than significant off-Reservation environmental impacts in the Environmental Report text.
- 4.8 Weighing Negative Projects** The Tribe shall give serious consideration to preventing off-Reservation environmental damage and should not approve a Project as proposed if there are feasible alternatives or mitigation measures available that would substantially lessen any significant adverse off-Reservation effect that the Project would create. In deciding whether to approve a Project that has negative off-Reservation economic impact, the Tribe shall consider the

specific economic, environmental, legal, social and technological factors involved.

4.9 Public Comment The Tribe shall assure adequate opportunity and time for public review and comment on all Environmental Assessments, Environmental Reports, and a Findings of No Significant Impact, and it shall review, evaluate and respond to comments received on each of these environmental studies.

4.10 Approving Projects The Tribe may approve a Project which would cause significant effect on the off-Reservation environment if it finds that:

4.10.1 There is no feasible way to lessen or avoid the significant off-Reservation environmental impact.

4.10.2 The specifically identified expected benefits of the Project outweigh the social or economic cost of reducing or avoiding the significant off-Reservation environmental impact of the Project.

4.11 Assignment of Responsibilities Where a Project is under the requirements of the National Environmental Protection Act, the Executive Council may delegate the responsibilities assigned to it under this Code in whole or in part to the United States government agency which is serving as the lead agency on the NEPA review. Provided, however, that the Executive Council asks the federal agency to study and render findings on the off-Reservation impact of the Project and to perform the local consultation required by this Code.

4.12 Time The Tribe shall allow adequate time to review an Environmental Assessment or Environmental Report for completeness. Acceptance of an Environmental Assessment or Environmental Report as complete shall not prohibit the Tribe from requiring additional information during its review of the findings.

4.13 Consultation The Tribe shall make an effort to consult with the planning and design team on the potential off-Reservation environmental impacts of any such Project during the planning and design stage.

SECTION 5 INITIAL ENVIRONMENTAL ASSESSMENT REQUIRED

5.1 Applicability When the Tribe commences any expansion or significant modification of an existing Tribal Gaming Facility or any significant excavation, construction or development associated with a new or proposed Tribal Gaming Facility, the Executive Council shall require an initial Environmental Assessment to determine if the Project will have a significant effect on the environment. This initial study may rely on expert opinion supported by facts, technical studies or other relevant evidence to substantiate its findings.

5.2 Process for Significant Effects If when reviewing this Environment Assessment, the Executive Council determines that there is substantial evidence that any aspect of the Project, either individually or cumulatively, may cause a significant effect on the off-Reservation environment, regardless of whether the overall effect of the Project is adverse or beneficial, it shall do one of the following:

5.2.1 Require an expanded Environmental Assessment, or

5.2.2 Require the preparation of an Environmental Report, or

5.2.3 Use a previously prepared Environmental Assessment or Environmental Report, which it determines would adequately analyze the Project at hand, or

5.2.4 Require an expanded study of one or more aspects of the proposed Project.

5.3 Purposes of Environmental Assessment

5.3.1 To assist the Tribe in determining when a Finding of No Significant Impact is appropriate.

5.3.2 To enable the Tribe to modify or amend the Project to minimize the off-Reservation impact.

5.3.3 To focus attention on those off-Reservation impacts that are significant and identify those off off-Reservation environmental impacts that are not significant.

5.3.4 To explain the reasons for determining that potentially significant off-Reservation environmental impacts would not be significant.

5.3.5 To eliminate the need for unnecessary Environmental Impact Studies.

5.4 Substance of Environmental Assessment

5.4.1 A description of the Project, including its location.

5.4.2 An identification of the environmental setting surrounding the Project.

5.4.3 A listing or chart of environmental impacts covered by the study, along with a narrative report that discusses those impacts.

5.4.4 A discussion of the ways that negative off-Reservation impacts can, or have been, addressed.

5.4.5 An examination of how the Project fits into local land use patterns.

5.4.6 The name of the person or persons who prepared the report.

SECTION 6 EXECUTIVE COUNCIL REVIEW OF AN ENVIRONMENTAL ASSESSMENT

- 6.1 Review** Following the completion of an Environmental Assessment, the Executive Council shall review its findings and determine whether the entire record, including that study, justifies the issuance of a proposed Finding of No Significant Impact or the development of an expanded Environmental Assessment or an Environmental Report. In so doing, the Executive Council shall utilize the criteria set forth in Sections 7-9 below.
- 6.2 Expanded Environmental Assessment** The Executive Council shall call for the production of an expanded Environmental Assessment when it determines that the proposed Project will have an impact on the off-Reservation environment, but such impact is limited enough that it can be addressed in a shorter more concise study.
- 6.3 Limited Environmental Assessment** The Tribe may require an Environmental Report on only those aspects of the Project that present a significant adverse impact off-Reservation.
- 6.4 Urban and Rural Distinctions** A determination of whether a Project may have a significant off-Reservation impact on the environment calls for careful judgment on the part of the Executive Council, based to the extent possible on scientific and factual data. An impact that may not be significant in an urban area may be significant in a rural area.
- 6.5 Mitigating Effects** If the Tribe determines that a Project will have off-Reservation impacts, but this impact is mitigated to the point that the impact is no longer significant and the whole record taken together shows no significant impact, a FONSI shall be issued.
- 6.6 Evidentiary Requirements** The existence of a public controversy over the off-Reservation impact will not require an Environmental Report, if the evidence in the report does not show that significant impact. Substantial evidence shall not be found from opinion or narrative but only from facts, reasonable assumptions predicted on facts and expert opinions supported by facts.
- 6.7 Archeological or Historical Resource** A Project which alters, in an advanced manner, those physical characteristics of an Archeological or Historical Resource (those listed in or eligible for listing in the California Register of Historical Resources or which are otherwise of historical significance) shall require mitigation.

- 6.8 Biological Species** A Project which endangers the overall health of a biological species shall require mitigation.

SECTION 7 FINDINGS OF NO SIGNIFICANT IMPACT (FONSI)

The Executive Council shall issue a proposed FONSI when:

- 7.1** It finds that in view of the entire records before it, including the Environmental Assessment, there is no substantial evidence that the Project will have a significant impact on the off-Reservation environment.
- 7.2** The mitigation steps agreed to by the developer clearly mitigate the off-Reservation impacts to the point that no significant impacts would occur.
- 7.3** The Project, as modified, would have no significant impacts on the off-Reservation environment.

SECTION 8 FONSI ELEMENTS

- 8.1** A brief description of the Project.
- 8.2** The Project's location, preferably shown on a map.
- 8.3** A proposed finding that the Project will not have a significant effect on the off-Reservation environment.
- 8.4** An attached copy of the Environmental Assessment.
- 8.5** A description of mitigation measures taken.

SECTION 9 PROCEDURES FOR APPROVAL OF A FONSI

- 9.1** If the Executive Council determines that it is prepared to approve a FONSI, it shall prepare a notice which includes each of the following items and forward that notice to the Clearinghouse of the State Office of Planning and Research, the Board of Supervisors and the County Clerk of the county in which the Project will be located.
- 9.2** This notice shall contain:
- 9.2.1** Identification of the Project and a brief description of it.
- 9.2.2** The date on which the Executive Council approved the Project.

9.2.3 A determination by the Executive Council that the Project will not have a significant effect on the off-Reservation environment.

9.2.4 A statement that a FONSI has been prepared pursuant to this Code.

9.2.5 The address where a copy of the FONSI may be examined.

SECTION 10 DECISIONS TO PREPARE AN ENVIRONMENTAL REPORT

10.1 Decision to Prepare an Environmental Report An Environmental Report shall be prepared when the Executive Council finds that there is substantial evidence that the proposed Project will have a substantial impact on the off-Reservation environment.

SECTION 11 DETERMINING THE SCOPE OF THE ENVIRONMENTAL REPORT

11.1 Before determining when to prepare an Environmental Report, the Executive Council shall arrange for consultation with state and local agencies, including the Board of Supervisors of the county in which the Project will be located, that have an interest in the specific environmental concerns raised by the Project and seek to have input on the nature and scope of the Environmental Report. Nothing herein shall require the Executive Council to provide these agencies with more than () days to submit the Environmental Report concerns.

11.2 Prior to completing the Environmental Report, the Executive Council may arrange for consultation with any person or organization believed to be concerned with the off-Reservation environmental impact of the proposed Project. Any person may submit information or comments to the Executive Council to assist it in preparing and evaluating the Environmental Report.

SECTION 12 PREPARATION OF ENVIRONMENTAL REPORT

12.1 The Executive Council may arrange for the Environmental Report to be prepared by its staff, or may contract with a third party to prepare the study, or may accept an Environmental Report prepared by the federal government or may accept an Environmental Report prepared by the State on the Project. In determining the scope of an Environmental Report, the Executive Council shall meet with and consider the views of the Board of Supervisors of the county in which the Project is to be located. It may also use a previously prepared Environmental Report.

SECTION 13 PREPARATIONS AND CERTIFICATION OF ENVIRONMENTAL REPORT

13.1 The Executive Council shall prepare or arrange to have prepared an Environmental Report, which shall be circulated for public comment before the Project is approved.

13.2 Contents of Environmental Report. The Environmental Report shall contain:

- 13.2.1 The Environmental Report and all revisions made to it.
- 13.2.2 A summary of the comments and recommendations received on the proposed draft.
- 13.2.3 A list of persons and organizations wishing to comment on the draft.
- 13.2.4 The response of the Executive Council to those comments.
- 13.2.5 Any additional information the Council deems relevant.

13.3 Notice of the Final Environmental Report

13.3.1 The Executive Council shall provide notice of completion of the Environmental Report to the public, the State Clearinghouse Office of Planning and Research, and the Board of Supervisors and County Clerk of the county in which the Project will be located. The notice to the County Clerk shall ask the clerk to post the notice in the county office within _____ () hours of receipt and keep it posted for a minimum of _____ () days.

13.3.2 This notice shall contain, at a minimum:

SECTION 14 EXECUTIVE COUNCIL FINDINGS FOLLOWING A FINAL ENVIRONMENTAL REPORT

14.1 Issuance of Findings After reviewing the public comments received on a final Executive Council certified Environmental Report, the Executive Council shall issue one or more of the following findings:

- 14.1.1 That changes and alterations have been required in or incorporated into the Project which avoid or substantially lessen the significant environmental effect as identified in the Environmental Report.
- 14.1.2 Such changes or alterations are within the responsibility or jurisdiction of an entity other than the Tribe, and the Tribe recommends that the changes or alterations be made.
- 14.1.3 Specific economic, legal, social, technological or other considerations, including provision of employment opportunities for highly trained workers, make the mitigation measures or Project alternatives identified in the final Environmental Report unfeasible.

SECTION 15 NOTICE OF DETERMINATION

15.1 Notice Publication Upon final review and approval of the Project, the Executive Council shall publish a notice in a newspaper of general circulation, with the State clearinghouse Office of Planning and Research, and with the Board of Supervisors and County Clerk of the county in which the Project will be located, a notice of approval or rejection of the Project.
